

Court Surfaces

A well-run tennis club relies on various types of infrastructure to ensure smooth operations and a great experience for its members.

Key aspects of infrastructure include –

Courts and Playing Surfaces, Clubhouse Facilities, Lighting and Court Equipment, Booking and Management Systems, Coaching and Training, Organised Play and Competition, Social and Recreational Spaces, Parking and Accessibility, Security and Safety Measures, Safeguarding, Sustainability Initiatives

The following recording focuses on - Court Surfaces and maintenance whereas part of our Inter-Club Forum we invited a selection of clubs from the 4 Provinces to talk about the court surfaces in their clubs
